Mumbai, Maharashtra

Professional Summary

Frontend Web Developer with **1+ years** of experience specializing in **React.js**, **JavaScript**, and scalable **backend** architectures. Adept at migrating legacy frontends into reusable component ecosystems, designing secure **REST APIs**, and implementing real-time data systems alongside **Generative AI** integrations. Proven track record of delivering **responsive**, feature-rich web applications that optimize user engagement, data security, and overall platform performance.

Education

B.K. Birla College of Arts, Science & Commerce, Kalyan,

MSC in Information Technology (Cloud Computing)

June 2022 – July 2024

- CGPA: 9.00/10.00

BSC in Information Technology

June 2019 – July 2022

- CGPA: 8.97/10.00

Skills

- Languages & Frontend:** JavaScript, React.js, HTML, CSS, **Tailwind CSS**, **Bootstrap**
- Backend & APIs:** Node.js, Express.js, REST APIs, Socket.IO, JWT Authentication
- Databases:** MongoDB, PostgreSQL, MySQL
- Tools:** Git, VS Code

Experience

Frontend Web Developer | Nuwebwave Technologies Pvt Ltd - Mumbai

Sep 2024 – May 2026

- Converted legacy **HTML pages** into modular, **reusable React.js components** to reduce code **duplication** and improve **maintainability**.
- Integrated **REST APIs** and authentication flows to enable secure, **real-time data** rendering and smooth session management.
- Built responsive, mobile-first** user interfaces using modern CSS frameworks to turn design wireframes into production-ready features.
- Debugged cross-browser issues** and DOM rendering bugs to improve overall platform stability and user experience across all devices.

Projects

DevmindAI – Full-Stack PERN & Generative AI Platform

[GitHub](#) | [Link](#)

- Architected a full-stack SaaS application** using the PERN stack (PostgreSQL, Express, React, Node.js) with a fully responsive layout optimized for mobile, tablet, and desktop devices.
- Integrated Google Gemini API** pipelines to build advanced AI features, including structured **article creation**, **SEO title generation**, **Image generation**, **Object Remover** and automated resume reviews.
- Designed relational database schemas** in **PostgreSQL** to manage user actions, handle **prompt logs**, and power a community collaboration network.
- Implemented secure user authentication** and session management across the platform by embedding **Clerk** for seamless **signup** and **login** flows.

QR-Based Real-Time File Sharing System

[GitHub](#) | [Link](#)

- Developed a full-stack web application** using React, Node.js, Express, and MongoDB that enables instant, login-free file transfers between mobile and desktop devices.
- Engineered real-time data communication** by implementing Socket.IO rooms to establish instant, secure session pairing between cross-device displays via QR code synchronization.
- Built secure file processing pipelines** using Multer and Cloudinary cloud storage to manage seamless, high-speed multi-format file uploads and automated downloads.

Personal Portfolio Website

[GitHub](#) | [Link](#)

- Designed and developed a responsive portfolio using **React.js** and **CSS**, featuring a minimalist UI optimized for all devices.
- Implemented reusable UI sections to cleanly showcase technical projects.
